PROFILE

Solutions Engineer and Technical Trainer with 3+ years in SaaS/Ad-Tech and 5+ years of teaching experience. Specializes in building analytics and automation solutions while mentoring engineering students through hands-on workshops in Python, ML, and Web Development.

WORK EXPERIENCE

Criteo, Gurgaon — 2023 - PRESENT
Solutions Engineer

- Worked on performance optimization and data-driven solutions for an ad-tech platform.
- Collaborated with cross-functional teams to implement scalable backend and frontend features.
- Gained strong exposure to large-scale data analytics and production-level systems.

Whatfix, Bangalore — 2022 - 2023
Solutions speatialist

- Created interactive and guided user experiences to enhance client onboarding.
- Managed web assets and integrated training content within enterprise-level applications.
- Developed reusable templates and improved user documentation workflows.

FREELANCE TRAINER & TECHNICAL INSTRUCTOR

- Conducted 50+ coding workshops, bootcamps, and seminars across engineering colleges.
- Trained 1,000+ students through both online and offline sessions.
- Designed structured learning paths, assignments, quizzes, and real-world projects.
- Helped colleges upgrade technical curriculum and improve student placement readiness.
- Delivered hands-on programs on:
  - Python (Beginner to Advanced)
  - JavaScript & Web Development
  - Machine Learning (ML models, data prep, evaluation)
  - Data Analytics using Python, Pandas, Power BI
  - Automation Testing using Cypress.
